

Robb & Abby

Welcome to Our Family!

Our Story

Our journey together began eight years ago, although we discovered quickly that we were born in the same home town a few years apart.

In 2018 we tied the knot on the beach surrounded by our family and friends. We truly love spending time together whether its playing board games as a couple or with friends, cooking dinner or traveling to new places.

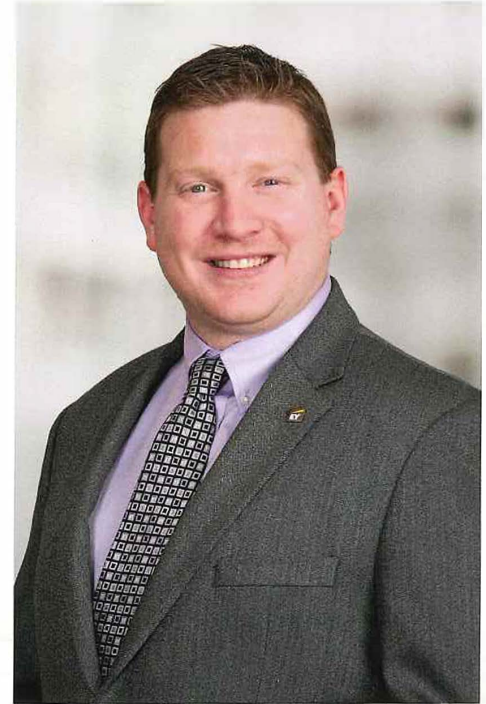

Abby

I am a stay at home mother with our two boys. Growing up I was an only child and always dreamt of a large and close knit family. I feel truly blessed to be able to stay home with my two sons. To me, there is no other way I would prefer to spend time than with my children. I plan on staying home with them until they are grown. It is so rewarding to watch them learn new things, grow into their own personalities and make memories together! During my downtime I really enjoy creating art, cooking and walking through nature. I am an avid reader as well!

Robb

I am a managing director for a public accounting firm, specifically working with financial services companies in the technology and risk space. Abby and I have been incredibly blessed to have our two boys, but truly believe that we have room in our hearts and in our home for another child. It has been a tremendous joy in my life to be able to teach our sons skills that will help prepare them for their lives ahead. As often as I can, I enjoy getting out to the golf course, woodworking (and teaching the boys), grilling, and spending time outside with the family.

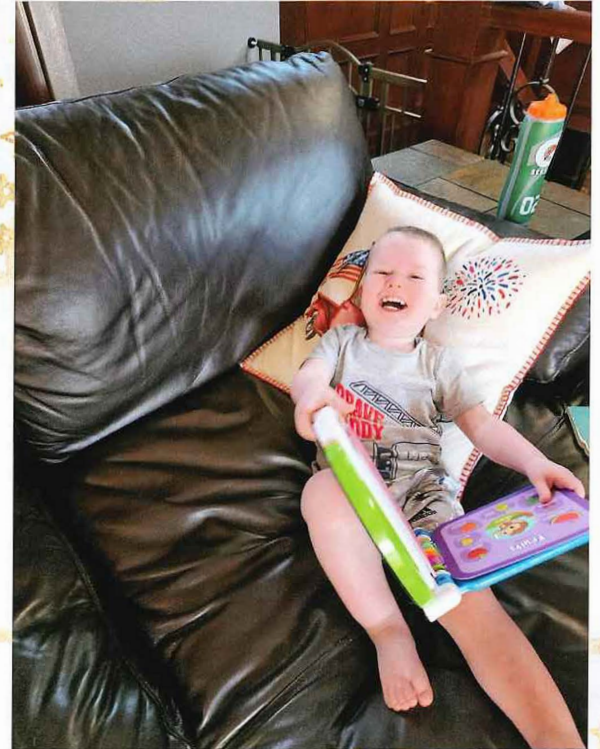

Our Family

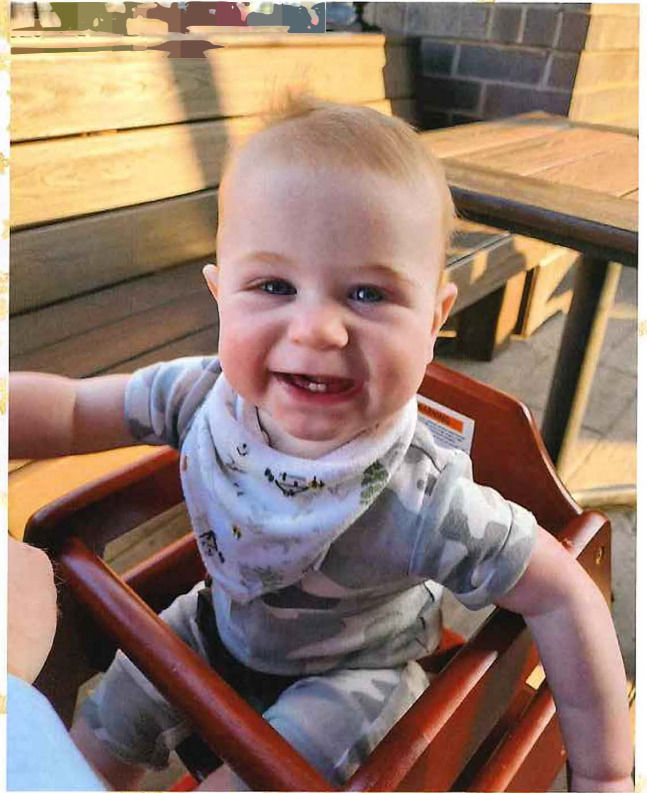

In 2020 the lord blessed us with our first son, Brett. Although 2020 was a strange year for everyone, a new baby brought overwhelming happiness to new Parents and Grandparents alike. In 2022 we were blessed with another addition, our second son named Reagan. Over the last few years our home has been filled with joy and laughter as they grow together. In addition we have two dogs (Odin and Freya) and a kitty (Emmy).

Brett

Brett is our oldest son and is 5 years old. He is a very affectionate boy but also always speaks his mind! He is most happy when he's making people laugh. His favorite things to do are going to the play ground, discovering things in nature, coloring, reading and most importantly RUNNING! He likes cars, trains, rocket ships and puzzles.

Reagan

Reagan is our youngest son and is 2 years old. Reagan is very playful and never runs out of things to do. He is a big fan of cuddles and kisses! He's aware a lot of the time to what people are feeling around him. He loves meeting new friends and going to new places. His favorite things to do is play on the jungle gym, bounce on trampolines, spinning in circles and dancing! He loves anything to do with dinosaurs and farm animals.

Our Community

We are so blessed to live in our town. We live in one of the best school districts in the state, we are walking distance to a State Park and we live by two big lakes. Our town square has weekly farmer's markets and fun seasonal events! We are active members of a Lutheran church that is walkable from where we live. It has a great Sunday School and youth programs that our boys really enjoy. Our son Brett goes to their preschool. Abby is on the Education Board for the church and really enjoys spending time with our fellow church members.

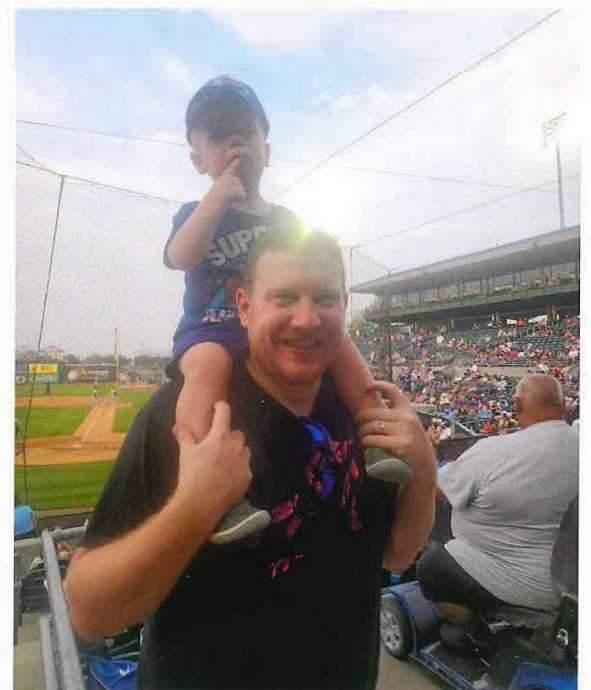

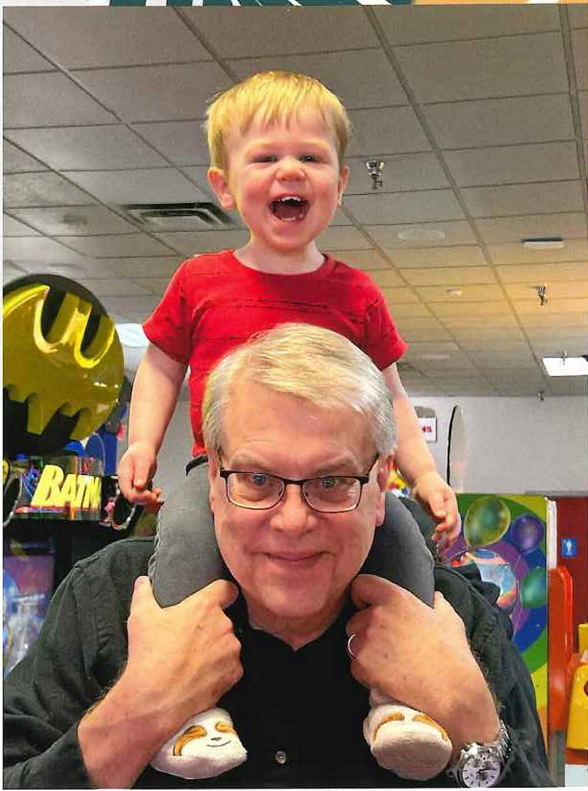

Family Fun

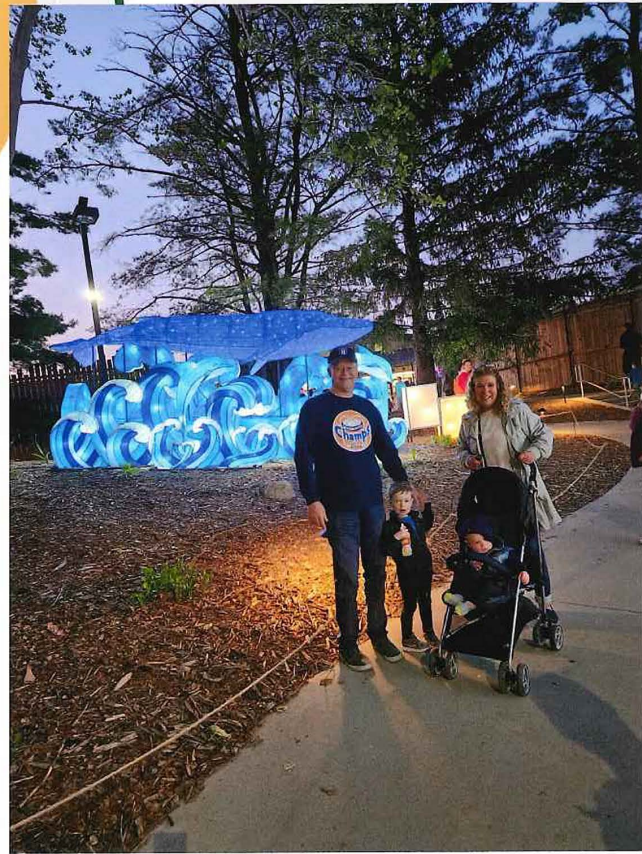

There are many things we love to do but what is most important to us is making memories together. We love nature walks, going to parks, sports games, family movie nights and spending time with family and friends. Our family enjoys spending time with our church friends and we are lucky to have a church that has so many fun events! The boys are also spending more time at the library, science museum, and zoo every year.

Our Home

We live in a small neighborhood with a cul-de-sac and walking distance to the State Park. There are many small children that live in our neighborhood and there are constantly children zooming by on scooters and playing in each other's yards. Our favorite thing about our house is our backyard! We have a fenced in yard with a half basketball court and a jungle gym.

Our hope is that through this book you feel like you have gotten to know our family and can see what a welcoming and loving home we have. We feel so blessed to have such sweet and healthy boys that we get to care for and love. As a family we feel deeply that we have more space in our hearts to fill with another child. After a difficult second pregnancy and knowing that our family still felt like it could grow a bit more, we felt called by the Lord to walk down this path. We so appreciate you considering our family to be a part of this experience!
